```
select * from customers where membership_id = 3;
```

#7 Find products in category_id = 1

```
select * from products where category_id = 1;
```

#8 Find suppliers from USA

```
select * from suppliers where country = 'USA';
```

#9 Find inventory with quantity more than 50

```
select * from inventory where quantity_in_stock > 50;
```

#10 Find employees hired after 2023-01-01

```
select * from employees where hire_date > '2023-01-01';
```

#11 Find products priced between 10000 and 20000

```
select * from products where price between 10000 and 20000;
```

#12 Find customers not from UK

```
select * from customers where country != 'uk';
```

#13 Find products with stock equal to 50

```
select * from products where stock_quantity = 50;
```

#14 Find employees with salary between 30000 and 50000

```
select * from employees where salary between 30000 and 50000;
```

#15 Find sales with amount greater than 200000

```
select * from sales where total_amount > 200000;
```

#16 Find customers who joined after 2024-01-01

```
select * from customers where join_date > '2024-01-01';
```

#17 Find products with price less than 10000

```
select * from products where price < 10000;
```

#18 Find suppliers from India or USA

```
select * from suppliers where country in ('india','usa');
```

#19 Find customers with membership_id in (1,2)

```
select * from customers where membership_id in (1,2);
```

#20 Find products not in category 1

```
select * from products where category_id != 1;
```

#21 Find employees whose role is 'Customer Support'

```
select * from employees where role = 'Customer Support';
```

#22 Find products with stock greater than 60 and price less than 20000

```
select * from products where stock_quantity > 60 and price < 20000;
```

#23 Find sales between 2025-02-01 and 2025-02-10

```
select * from sales where sale_date between '2025-02-01' and '2025-02-10';
```

#24 Find customers from India with membership_id 3

```
select * from customers where country = 'India' and membership_id = 3;
```

#25 Find products with price not between 10000 and 50000

```
select * from products where price not between 10000 and 50000;
```

#26 Find suppliers not from China

```
select * from suppliers where country != 'China';
```

#27 Find inventory restocked after 2025-01-05

```
select * from inventory where last_restock_date > '2025-01-05';
```

#28 Find employees hired before 2023-01-01

```
select * from employees where hire_date < '2023-01-01';
```

#29 Find products where stock is between 20 and 50

```
select * from products where stock_quantity between 20 and 50;
```

#30 Find customers from USA with membership_id 2

```
select * from customers where country = 'USA' and membership_id = 2;
```

#31 Find sales with amount less than 50000

```
select * from sales where total_amount < 50000;
```

#32 Find products where price is exactly 120000

```
select * from products where price = 120000;
```

#33 Find employees with salary not equal to 30000

```
select * from employees where salary != 30000;
```

#34 Find customers from Australia

```
select * from customers where country = 'Australia';
```

#35 Find suppliers from Japan or Germany

```
select * from suppliers where country in ('Japan','Germany');
```

#36 Find products with stock greater than 80

```
select * from products where stock_quantity > 80;
```

#37 Find customers whose name starts with 'A'

```
select * from customers where customer_name like 'A%';
```

#38 Find products whose name contains 'RGB'

```
select * from products where product_name like '%RGB%';
```

#39 Find employees whose name ends with 'Singh'

```
select * from employees where employee_name like '%Singh';
```
